The University Authorities

The authorities are: rector and three vice-rectors dealing with education, research and international co-operation, students affairs and a chancellor in charge of administration.

The Rector - prof. dr hab. Robert Kwaśnica

The Chancellor – mgr inż. Edward Błaszczuk

Vice-Rector of Education – dr Teresa Stasieńko

Vice-Rector of Research and International Co-operation – prof. dr hab. Bogusława Dorota Gołębniak

Vice-Rector of Student Affairs – dr Czesław Malczewski

Description of the University

DSWE TWP was established by the Local Department of the Association for the Advancement of Education (TWP) in Wrocław. Mrg Janina Tauroginska-Kopera (the Director of the Local Department of TWP) and prof. dr hab. Robert Kwasnica (then the Chairman of the Local Department of TWP) came with the initiative to establish DSWE TWP.

DSWE TWP has been established based on the decision of the Ministry of Education on 16th June 1997. It was registered as a non-state university under the number 118 in the register of non-state schools. In its beginnings the school had a name 'Popular Knowledge Society's Lower Silesian University College of Education' (DSWE TWP). Nowadays our university is named 'University of Lower Silesia Association for the Advancement of Education in Wrocław'.

DSWE TWP is a non-state university and it functions on the same rights and rules like state universities (based on the 12th September 1990 education bill concerning universities).

There were two fields of study: pedagogics and special pedagogics with five specializations in the first year of activity. There were also established post-diploma studies. In October 1998, 375 students began their studies in DSWE TWP. In the following years the number of students has increased gradually (presently there are 5325 students in DSWE TWP). There are also more and more specializations to choose from. In 1999-2000 the university obtained the right to organize the education on two new fields of study: international relations as well as journalism and social communication.

Presently there are four fields of study and 28 specializations.

Established in 1999 Institute of Continuing Education for Teachers and Educational Studies offers a wide variety of postgraduate studies (presently there are 39 of them).

DSWE TWP is the owner of the two buildings placed in Wagonowa Street 6 and Wagonowa Street 9. Apart from those it leases a building in Strzegomska Street 47. Presently there are 4 computer rooms and the collection of the library is rising gradually (22000 volumes).

Since 1st October 2001 in DSWE TWP there are also master studies and supplementary master studies in the field of pedagogics.

In December 2002 the State Accreditation Commission evaluated the quality of education in DSWE TWP in the fields of study of pedagogics and special pedagogics. Both fields of study obtained the positive opinion and since February 2003 they have been accredited fields of study.

To underline the constantly developing cooperation with foreign universities there was the International Culture and Education Institute established in DSWE TWP.

Already in the first year of the university the scientific research projects have been developing and there is a magazine entitled 'The Present-Human Being-Education' ('Teraźniejszość-Człowiek-Edukacja') published quarterly.

The university frequently organises scientific seminars and gives grants for various research projects. 19 scientific monographs have already been published by the university's publishing house.

At present the basic organisational unit of DSWE TWP is the Faculty of Pedagogics which consists of: the Institute of Pedagogics, the Institute of Special Pedagogics, the Institute of Continuing Education for Teachers and Educational Studies. Apart from those there are also: the Institute of Journalism and Social Communication, the Institute of International Relations and the International Culture and Education Institute.

The Rules of Enrolment

Candidates who have the maturity exam certificate are enrolled without any entrance examination. The enrolment is based on the order of applications and it lasts until the 20th September.

The general information about the Institute of Pedagogics

The Institute of Pedagogics has been running since 1997. Since 2002 it has been the organisational unit of the Faculty of Pedagogics in DSWE TWP.

The Dean of the Faculty of Pedagogics – prof. dr hab. Bożena Wojtasik

The Director of the Institute of Pedagogics – prof. dr hab. Mirosława Nowak-Dziemianowicz

There are three types of full-time and part-time studies in the Institute of Pedagogics

- bachelor studies – three years
- master studies - five years
- master studies, supplementary - two years

There are also postgraduate studies.

The didactic and research courses are been carried in six Units:

- The Unit of the General and Basic Education
- The Unit of Social Research Methodology and Andragogics
- The Unit of Culture Studies
- The Unit of the General Pedagogics and Pedagogical Doctrines
- The Unit of Social Pedagogics and Therapy
- The Unit of Primary Education

There are 55 researchers and lecturers and 2 465 students in the Institute of Pedagogics.

The information about studies

There are six specializations of three-year vocational studies in the field of PEDAGOGICS:

- Art education. Contemporary visual art.
- Primary and kindergarten education
- Primary education and pedagogical therapy
- Tutorial education and health promotion
- Family pedagogics
- Vocational and educational counselling
- Social work and guidance

All studies last 6 terms and end with a bachelor diploma exam. Students obtain the bachelor degree and with the right professional qualifications are prepared to work in proper educational institution and as tutors and advisors in counselling services.

The specialization of *Art Education. Contemporary visual art* prepares to work in various educational institutions and as independent artist.

The specialization of *Primary and kindergarten education* prepares the future teachers in the field of integrated primary education and in kindergarten. The specialization of *Primary education with therapy* prepares the future teachers in the field of integrated primary education with extended competence of pedagogical therapy.

Students obtain qualifications to the educational, tutorial and compensatory work with children and teenagers deprived of parental care and trained in the specialization of *Tutorial education and health promotion*.

In the specialization of *Family pedagogics* students obtain the qualifications in the field of counselling as well as marriage and family therapy.

The qualifications of an advisor and teacher helping to choose the proper profession and career of individuals and groups are possible to obtain in the specialization of *Vocational and educational counselling*.

Social work and guidance is the specialization where students are trained to work as social workers in various kinds of social help institutions.

Depending on the specialization the mode of studies consists of 2 200 hours including 720 hours of obligatory and about 1480 hours of optional courses.

The list of the obligatory courses contains all specializations in the fields of study of Pedagogics.

The list of the optional courses is depended on student's choice of specialization. Choosing it the students decide about the compulsory optional courses.

The didactic programme is completed with 150 hours of practical training. The training is compulsory on all specializations in the field of Pedagogics.

The objectives of education

The graduate of the field of study of PEDAGOGICS obtains the following skills

- the humanistic knowledge enabling their to comprehend the contemporary world and the educational reality
- the pedagogical and psychological knowledge necessary to comprehend and to develop their own professional roles

Students obtain the practical skills in the fields of social communication as well as creating and using diagnostic and methodological workshop.

Further possibilities of education

The graduate of the three-year vocational studies can continue their education on supplementary studies and later develop and obtain new skills on post-diploma studies.

The list of courses

All courses are conducted in Polish

Art education. Contemporary visual arts

Conditions to finish studies

To finish studies a student has to get all the credits included on the curriculum of a given faculty and write a bachelor's dissertation and defend it before the examination board.

Principles of evaluation and examining

Completing separate courses is determined by the curriculum which includes final grade, credit without a grade, term paper and examine. In case of a negative grade in an exam the first time round a student has a right to resit it. If he fails it again he can ask for the examine conducted before the examination board. In case of failure this time he does not get a credit for the course.

Grading scale

Grade	Grade name	ECTS grade
5	very good	A
4,5	good plus	B
4	good	C
3,5	satisfactory plus	D
3	satisfactory	E
2	FAIL - considerable further work is required	F

Practical information for students

European Credit Transfer and Accumulation System (ECTS) has been created to facilitate the exchange of students between higher education institutions and access to information about study programme. The system obliges a student's home institution to recognize studies abroad without necessity of additional credits or repetition of the year.

ECTS guarantees principle transparency of completing studies by:

- allocating ECTS credits to each course,
- creating information package about a school and programmes of study.

ECTS credits are allocated to all obligatory courses in the study programme. They constitute a numerical value of student workload he has to do to get a credit for a particular course. There is no direct relation between the number of didactic hours and the number of ECTS credits allocated. The ECTS credits determine a student's actual workload and contribution to get a credit for a course. They are allocated independently of forms of didactic classes (lectures, seminars, classes, workshops). Completing the year of studies requires accumulation of 60 credits (30 credits in a term on average). It enables a student to select courses depending on his own abilities and time.

Information package makes it possible to get to know well a university in which a student plans to study. It gives a student a chance to get acquainted with courses and study programme. It allows to select courses similar to those he has in his home institution. For each student who leaves to study abroad as well as for the one who returns from studies abroad there is a transcript of records. Credits for completed courses are allocated to courses which are obligatory in his home institution.

Higher education institutions participate in ECTS programme voluntarily. They clearly determine principles of studies and have a flexible approach to the cooperation with partners. A crucial role is played by coordinators i.e. people responsible for contacts with other institutions and proper functioning of ECTS in a university.

Basic principles of ECTS:

1. Principles of the system are the same for all kinds and forms of studies.
2. ECTS credits are allocated to all courses in the study programme.
3. Credits are allocated to a course, not to its particular component elements. Partial allocation of credits is possible in case when a course covers more than one term. Getting positive grades from the whole course is equivalent to allocating a student a proper number of ECTS credits.
4. To complete the year a student has to acquire:
 - **sixty credits in a year,**
 - **thirty in a term** (unless the study programme allows deviation from the number of credits in a term).
5. Getting a diploma requires fulfilling rigors included in the study programme and getting a determined number of credits.
 - **180** – to complete vocational undergraduate studies
 - **300** – to complete uniform graduate studies

Formalities connected with arrival and stay in Poland.

Students from the European Union countries who want to study in Poland do not need a visa, whereas students from other countries before arrival to Poland should be granted a student visa in one of the Polish Embassy in the students' countries.

International cooperation of University of Lower Silesia Association for the Advancement of Education (DSWE TWP)

International cooperation can be seen in a range of activities carried out by DSWE TWP in educational and research areas. The university is a member of international associations (AEA-E - Association for Educational Assessment Europe; EUPRERA – European Public Relations Education and Research Association; ESREA – European Society for Research on Education of Adult). It holds international conferences, seminars and workshops. It has got ERASMUS University Charter and takes active part in ERASMUS, COMENIUS and GRUNDTVIG programmes. The university cooperates with fourteen partner institutions in Europe within the framework of ERASMUS programme. It cooperates with nine other European institutions which take part in the project of COMENIUS programme. Besides it cooperates with the institutions from the USA, Germany, Russia and Denmark on the basis of bilateral agreements.

Unit responsible for admission procedure and service of foreign students in the University of Lower Silesia Association for the Advancement of Education

All inquires concerning admission of foreign students should be addressed to the SOCRATES and ECTS coordinator: Jadwiga Dobrowolska ul. Wagonowa 9, 51-168 Wrocław, tel.:+44(71)355-22-40, ext.125, fax:+48(71) 359-46-90, e-mail: dobrowolska@dswe.wroc.pl. After arrival a foreign student should come to International Cooperation Office of the University of Lower Silesia Association for the Advancement of Education

ul. Wagonowa 9
51-168 Wrocław

Accommodation

University of Lower Silesia Association for the Advancement of Education helps foreign students to find accommodation in Wrocław. The university does not have student hostels but can help to find a place in one of the student hostels in Wrocław. It can also help students to look for accommodation on the private market. Information about private accommodation in the city available for students can be gathered from local newspapers, the Internet and two agencies:

- Student Bank of Lodgings of Wrocław University of Technology MANUS foundation (Studencki Bank Stancji Fundacji MANUS Politechniki Wrocławskiej)
pl. Grunwaldzki 7/5, building D-5, room 4
50-370 Wrocław
tel.:+48(71)320-23-74, www: manus.pwr.wroc.pl
- The Academic Bank of Lodgings (Akademicki Bank Stancji) PLANETA MŁODYCH, ul. Sienkiewicza 116/4, Wrocław, tel/fax:+48 (71) 328-06-77, www.bank.stancji.prv.pl; www.planetamlodych.org.pl; e-mail:info@planetamlodych.org.pl

Cost of living in Wrocław

Accommodation – on average about 75 EUR (in a students' hall of residence)

80-190 EUR (flat rent on the private market);

Monthly cost of food – on average 150-200 EUR (food prices may be different in various shops, vegetables and fruit are cheaper in summer than in winter);

Dinner price in a university canteen – about 2-3 EUR;

Student monthly tram and bus ticket – about 12.50 EUR;

Cinema ticket – about 4-5 EUR.

Medical care and insurance

People who have public health insurance are entitled to free medical service in Poland. The person from another EU country, staying temporarily in Poland, has the right to get free medical services on the ground of E111 form issued in foreigners' home country or the European Health Insurance Chart. An entitled person is provided with free medical services which cover: basic medical care, specialist clinic treatment, hospital treatment, dental treatment, rescue and medical transport. People who do not possess the above mentioned documents have to cover medical costs by themselves. Similarly when they use services provided by the unit which does not have a signed contract with National Health Fund – institution which is responsible for providing basic medical care in Poland. In Wrocław there is a good system of private specialist hospitals, dental and surgeries clinics, etc.

Address data of NHF central and local institutions:

Foreign students are advised to buy an insurance against the consequences of unfortunate accidents.

Library and computer facilities

The university's library possesses over 23 900 volumes. There is an extensive collection of literature related to the areas covered by the university's activities , i.e. pedagogics, special pedagogics, primary education, psychology, communication, journalism and political science. There is also available the database concerning education and related disciplines. Students have an easy access to computers and the Internet as the university computer laboratories are very well equipped.

Language courses

Students learn foreign languages in the Foreign Language Department. They can learn English, German, Spanish, French and Russian. Foreign students can take part in an intensive course of Polish language in The School of Polish Language and Culture for Foreigners at University of Wrocław. Its address is:
Pl. Nankiera 15, 590-140 Wrocław, tel.: +48(71)340-25-70.
One semester of the Polish course costs approx. 180 EUR.

Sports classes

There is a possibility of taking part in sport courses within the study curriculum.

Other practical information

All the students get a student ID card which entitles them to a 50% discount on public transport in the city. Student ID card also entitles them to a discount on cinema, theater and museum tickets as well as on railway tickets.

Motorized students should be aware of the fact that driving a car under the influence of alcohol or drugs is forbidden in Poland (beer also is considered an alcohol in Poland).

Student organizations and leisure time

In the university there is an active Students' self-government Government and Independent Student Association. The students of the Institute of Journalism and Communication issue their own periodicals: the weekly *Spięcie* devoted to school and students' problems as well as the monthly *Negatyw*.

There are also scientific and interest circles in the university. A number of integral and scientific activities are offered. Careers Office works actively to ensure DSWE TWP students' professional future.

Wrocław is the third largest academic centre in Poland. In the city there are numerous music clubs, pubs, cafés, restaurants, museums and cinemas. There are cyclic cultural events – music, theater and others. You can find information about the city on www.wroclaw.pl.

This publication has been financed from the funds of European Union SOCRATES/ERASMUS programme.
